Subject: Microsoft Settlement

I am sending this email because I am concerned that the Proposed Final Judgement does not go anywhere near far enough to stop Microsoft's anti-competitive behavior. There are too many loopholes which others have adequately described. Microsoft's only concern at the end of the day is how many dollars they can suck out of their customers. If the remedies are not made more severe, there will be no limit to the damage they will cause to consumers and the high tech industry in the future.
